

# Côr™ Home Automation Wireless Water Resistant Personal Panic Device TX-4200

## Product Data

### OVERVIEW

The Wireless Personal Panic Device features an updated design that is both chlorine- and UV-resistant for long-lasting and reliable performance. In addition, the Panic Button is water-resistant and functions as a wireless device activating alarm. The alarm will be sent via the notification process for self monitoring. When the panic button is pressed, the LEDs on either side of the button will blink and an alarm signal is transmitted.

The status of the battery is sent in every transmission, and the battery is field-replaceable. The panic device comes configured as a wristband, but can easily be configured as a pendant (accessories included).

### SPECIFICATIONS

Compatibility	Côr Home Automation Panel
Power Supply	3.0V lithium battery (CR1632)
Recommended Battery	Panasonic CR1632
Estimated Battery Life (at 20°C)	>5 years
Typical Standby Current	1µA
Supervisory Interval	Less than 64 minutes
Frequency	319.5 MHz
Transmitting Range	>=500 ft open-air
Transmitter Technology	Crystal
Operating Temperature	32°F~120°F (0°C~49°C)
Storage Temperature	-30°F~140°F (-34°C~60°C)
Relative Humidity	5%-90% (non-condensing)
Enclosure	Compliant to IP68
Standard Listings	FCC, IC
Dimensions (L x W x D)	1.6 x 1.4 x .4 in. (without adaptors or wristband)
Wristband Constructions	Medical grade polymer

### STANDARD FEATURES

- Water-resistant rating to IP68
- May be configured as a pendant
