## SAY HELLO TO EVEN MORE PERFORMANCE & COMFORT

The Carrier Ductless Hybrid Solutions combine the best of both ductless and traditional HVAC. That means you get the quiet operation, small footprint and enhanced efficiency of ductless and the high performance of traditional units. All in a single hybrid system.

### FEATURES & BENEFITS

#### **High-Performing**

Reduced energy requirements means more efficient, cost-effective heating and cooling.

#### **Fit-for-Purpose**

Multiple sizes and combinations meet a range of applications, home sizes and needs.

#### **Consistent Comfort**

Inverter technology ensures precise temperature control with fewer temperature swings.

#### **Small Size**

A minimalistic, modern design enables a small outdoor unit footprint.

#### **Whisper Quiet Operation**

Minimum noise and disruption means maximum peace and comfort.

#### **Third-Party Thermostat Compatible**

Compatibility with a range of thermostats, plus the ability to control an entire system from one interface, increases flexibility and connectivity.
