R_x11-flush®

R_x11-flush is a unique solvent engineered specifically for flushing refrigeration and air conditioning systems. R_x11-flush is ozone-safe, non-toxic, and non-flammable. Its patented HFC-based solvent formulation is powerful enough to flush away sludge, carbon residues, oils, acids, water and other particulates. R_x11-flush is ideal for system flushing after burnouts, during retrofits, and for flushing line sets for R-410A conversions. R_x11-flush has been the industry’s standard for over a decade, and contractors agree — it’s the best flush for R-410A retrofits and after compressor burnouts.

Rx11-flush Starter Kit	Contains a 1 lb. canister, Rx11-flush Gun and Hose, and Injection Valve	4300-08
1 lb. canister	Flushes 1-2 line sets	4300-09
"2+1" Display Pack	Contains one Injection Valve and two 2 lb. canisters	4300-10
2 lb. canister	Flushes up to 5 line sets	4300-11
13 lb. canister	Recommended for up to 50 ton system or 30+ line sets	4300-15
26 lb. canister	Recommended for systems over 50 tons or 60+ line sets	4300-26

R_x11-flush® Liquid

R_x11-flush Liquid is a unique solvent engineered specifically for flushing refrigeration and air conditioning systems. It remains a constant boiling solvent, and its stronger, faster-acting formula dissolves more oil, moisture, and contaminants than any other flush. It is ideal for line sets, burnouts, and other flushing requirements.

19.5 ounce can	4300-30
Rx11-flush Liquid Starter Kit	4300-38

R_x11-flush® Accessories

The R_x11-flush product family also includes various support tools. This includes the Injection Valve for hooking up to a charging hose for flushing and the Flushing Tool for facilitating line set flushing. In addition, the R_x11-flush Gun with a built-in flushing attachment and the R_x11-flush Hose (24") are available.

Flushing Tool	4300-50
Rx11-flush Gun	4300-51
Rx11-flush Hose (24")	4300-52
Injection Valve	4300-89

(Injection Valve fits Pneu-flush® and pressurized Rx-Acid Scavenger® as well)

A/C Re-New is a highly formulated, OEM approved product that has established an outstanding track record enhancing the performance of air conditioning and refrigeration systems. A/C Re-New frees sticky valves, quiets noisy compressors, reduces energy consumption by lowering starting and running amps, and improves heat transfer in the evaporator and condenser. It's great for new systems as a preventative or to reinstate performance of older systems. It can also assist in oil return with R-22 replacement refrigerants. It's available in a quick, injectable treatment (using the Connect Injector Tool) or in a four-ounce can to be used with the A/C Re-New Injector Tool.

1 quart can	4057-54
4 fluid ounce can	4057-55
A/C Re-New Injector Tool	4057-99
A/C Re-New Connect Inject	4057-56
Connect Injector Tool	4155-01

A/C ReStart™

A/C ReStart is a POE lubricant treatment designed specifically for R-22 retrofits. It eliminates oil change-out by boosting oil return. A/C ReStart also includes Rx-Acid Scavenger for addressing trace acids during retrofits. It's available in a quick, injectable treatment (using the Connect Injector Tool) or in a four-ounce can to be used with the A/C Re-New Injector Tool.

4 fluid ounce can	4060-55
A/C ReStart Connect Inject	4060-56
Connect Injector Tool	4155-01

Rx-Acid Scavenger®

The most effective way to neutralize or “scavenge” acid in refrigeration and air conditioning systems. Rx-Acid Scavenger is perfect for use after burnouts or during normal on-going system maintenance. In addition, Rx-Acid Scavenger can be used with all lubricants: mineral, alkylbenzene, and polyol ester. Now available in a pressurized can for easy injection into charged systems or hermetically sealed systems. Connect Inject version is a quick, injectable treatment that uses the Connect Injector Tool.

2 fluid ounce unpressurized bottle	4301-02
3.8 ounce pressurized can	4301-05
Injector Valve	4300-89
Rx-Acid Scavenger Connect Inject	4301-06
Connect Injector Tool	4155-01

(Injection Valve fits Rx11-flush® and Pneu-flush® as well)

Phase III® Refrigeration Oil Acid Test Kit

Formulated for use with POEs as well as mineral oils and alkylbenzene, Phase III is an inexpensive, disposable test kit that provides proof-positive that acid level in refrigeration oil is either safe or unsafe. Phase separation makes it easy to see change in color of acid indicator (even if a leak detection dye has been added to the oil). With just two bottles to use, it is simple, safe, accurate, and small enough that you can carry several in your tool box.
