

CONDENSATE PUMPS

ClearVue™ Pump

No Float, No Problems! ClearVue's Variable Speed and Lift and Floatless Sensor™ make this the most advanced condensate pump ever. This new pump can provide up to 22' of lift if needed. ClearVue™ runs at the minimum speed needed, saving wear on the pump. The pump selects the lowest effective speed, making it quieter than a regular pump. Its unique self cleaning feature senses problems and automatically enters a self cleaning mode using condensate water to fix the issue. The ClearVue™ pump features a clear bottom tank to easily check the water level. Other features include: stainless steel mounting tabs, silicone rubber feet, reversible deck, four inlet holes, and LED indicator lights. ETL Listed File Number 3190890

CP-22 Low Profile Pumps

The new CP-22LP comes packed with all the same great features found in the CP-22, but now in a low profile package. This pump is only 4-3/8" tall so it's a good fit for those instances where space is at a premium. The shorter reservoir holds 1/3 gallon. Suitable for use with condensate up to 160 degree F. UL Listed File Numbers E253155 and E258186.
