## CAPACITY CONTROL PACKAGES

COMPRESSOR	TYPE	COLOR	PACKAGE NUMBER	BARE UNLOADER VALVE
06D	Electric	Green	06DA660177*	06DA660175
		Gray	06DA660180	
	Pressure	Green	06DA660090	06DA660176 †
		Gray	06DA660181	
06E	Electric	Green	06EA660171*	06DA660175
		Gray	06EA660173	
	Pressure	Green	06EA660139	06DA660176 †
		Gray	06EA660174	

\* Coil NOT included, order separately (see Section 3.16).

† Special Allen head wrench to change valve is part number 06EA680036.

## NOTES:

- Each package unloads 2 cylinders (1-step) and includes (1) cylinder head assembly with applicable unloader valve (electric or pressure) and necessary gaskets.
- When adding the suction cut-off unloading feature to any compressor, it is no longer necessary to change the valve plate. The suction cut-off method of unloading functions independently of the valve plate.
- To avoid interfering with hi-lo pressure connections or cylinder head sensor, install the unloader cylinder head as follows (viewed from P.E. of compressor):  
 06D 4-cyl - left hand cylinder deck  
 06E 4-cyl - right hand cylinder deck  
 06D, 06E 6-cyl - either cylinder deck (both when applicable)
- Unloader valve gasket part number 06EA501253.
- Unloader is not available for 06CC compressors.

## SMART UNLOADING CAPACITY CONTROL PACKAGE

COMPRESSOR	TYPE	COLOR	PACKAGE NUMBER
06D*	Electric	Green	06DA409557
		Gray	06DA660182
06E*	Electric	Green	06EA407189
		Gray	06EA660175

\* Does not include gaskets, bolts, and solenoid coils.
